

IRFU Injury and Concussion Report Form 2017/18

The IRFU Injury and Concussion Report Form must be completed by a designated Club/School Official and returned via post or email to the relevant provincial office within 1 week of injury occurrence.

An injury that must be reported using this form is defined as; any injury occurring during rugby training or game, which requires that the injured player is transported to and/or treated in hospital and all suspected/confirmed concussions).

The purpose of the form is to ensure that all injuries are reported to the IRFU and provincial branches and that a record is kept of these injuries. **Your Club/School should also maintain an Injury report logbook where details of all injuries are recorded.**

The IRFU Injury and Concussion Report Form is also a method of data collection for the IRFU. Each section asks a specific question about the player, the type of injury they suffered, and the consequences of the injury. It is essential that each section of this form is filled out in its entirety, so that full use may be made of the data.

It is important to note that by filling in the form and forwarding it to the IRFU, the club/school official is not handing over responsibility to the IRFU for the care or management of the effected player. It remains the responsibility of the club/school official to follow up on their player and report any serious incidents to their province.

(See www.irishrugby.ie/concussion for further information on concussion.)
